

WE'RE RECRUITING

- INSTALLATION ENGINEER -

JOB DESCRIPTION

We are looking for an experienced, enthusiastic and motivated new member of the team to help us deliver a wide range of exciting residential technology projects across London and Surrey. Applications are invited for a varied and hands-on position within a growing business that prides itself on quality and attention to detail.

POSITION SUMMARY:

Annual Wage:

£23,000 - £30,000 (based on experience)

Job Type:

Full-time

Working Week:

Monday to Friday 7.30am - 4.30pm

Office Address:

145b Walton Road, East Molesey KT8 0DU

Working Areas:

Surrey, London and the South East

Provisional Start Date:

June / July 2020

Date Posted:

25 April 2020

MAIN RESPONSIBILITIES:

- 2+ relevant years' experience required
- Experience with Control4, Crestron, Lutron hugely beneficial
- Installation and integration of high-end audio, video, networking, cinema, lighting, control and security equipment
- Managing a Junior Engineer on and off site, including assigning jobs / tasks and quality-checking work
- Running, managing and terminating low-voltage cabling (category 6, 6A, coaxial, speaker, fibre) within patch panels
- Carrying out client service calls and maintenance visits
- System setup and programming inc. IP/LAN networking and WiFi
- Experience with power tools (drills, multi-cutters etc.) is beneficial
- Following AV schematics to build racks to an exceptional standard
- Work closely with our project managers to deliver projects on-time, on-budget and to the highest standards possible
- On-site commissioning of projects and systems including full demonstrations to clients and their families.

REQUIREMENTS AND PROSPECTS

Organisational skills:

- Must be able to keep installation van and workshop clean and tidy & well stocked with essential items
- Must be able to keep tooling organised & when on-site and keep areas of work clean

Technical qualities:

- Candidate is expected to have excellent soldering, crimp and termination skills
- Good fault-finding skills to resolve technical issues
